

LOS AMIGOS

TORTILLA MFG., INC.

That old cliché is true! You never get a second chance to make a good first impression. Why not insure a great first impression by serving your guests our corn tortilla chips? Our tortilla chips are made from 100% stone ground corn, cooked and milled in our family owned facility located in Midtown Atlanta, Georgia. Los Amigos Tortilla Manufacturing, Inc. was a pioneer when we began production in 1969, and today we continue to produce high quality, authentic Mexican corn and flour tortilla products.

Our flour tortillas are the best!

Ranging in size from 6", traditionally used for fajitas to 12", best suited for wraps, Los Amigos offers a perfect blend of technology and classic ingredients that form a consistently sized and exceptionally flexible flour tortilla suitable for any application.

Enchiladas, anyone?

Los Amigos offers an exceptional corn flour maseca which yields a pliant, easy-to-form tortilla which can also be fried for chips, taco shells or small boats. And remember, this tortilla and all our corn and flour products has an exceptional shelf life of 30 days dry and 60 days refrigerated.

In keeping with our commitment to authenticity, **Los Amigos guarantees the best table corn tortilla available.** Table corn tortillas are nearly twice the dozen-weight of chip tortillas and retain more oil when cooked. Table tortillas are a traditional bread replacement at the table and can also be used for tacos as they are microwave-friendly and will retain moisture and flexibility better than lower moisture chip tortillas.

Los Amigos, backed by years (and generations) of experience, is offering the best price for our products. We understand that the typical Mexican restaurant operator prefers a consistent invoice price that does not depend upon rebates or other “incentives” to lower the price. When your needs call for authentic Mexican taste at the most competitive price, think Los Amigos Tortilla Manufacturing, Inc.

Corn Flour Products
